

NexTec Group Is Awarded Accounting Technology's VAR 100 List for the Fourth Consecutive Year

*Accounting Technology Magazine Recognizes NexTec Group for Industry Leading
Technical Consulting Practices and Services for the Fourth Consecutive Year*

Los Angeles, CA—May 28, 2008 – NexTec Group, a leading provider of innovative accounting and operations software solutions and consulting services, was named to Accounting Technology's "VAR 100" list for the fourth consecutive year. NexTec Group moved up 5 spots this year ranking 25th out of the top 100 selected VARs nationwide. Companies that were picked for inclusion in the VAR 100 list sell mid-level accounting software packages and were selected based on their status on Dec. 31, 2007. Companies distinguish themselves from others through their performance, and the factors that went into our selection process include the organization's great leadership abilities, industry reputation, sales per employee, revenue growth and overall growth in the organization," said Robert Scott, Editor of Accounting Technology.

Receiving this award attests to the commitment and dedication NexTec Group makes for every client project. "We are very pleased to be included on the VAR 100 list again this year," said Russ Harper, Vice President of Technology, NexTec Group. "Every year we try and do everything a bit better than the last; without that continuous improvement, we could never maintain our position in such a competitive peer group. My hat's off to the employees who make this happen on a day to day basis, they really go the extra mile to keep our customers and partners happy with NexTec Group."

About NexTec Group

NexTec Group specializes in providing small, mid-market and mid-enterprise companies with financial, ERP (Enterprise Resource Planning) and CRM (Customer Relationship Management) solutions suited to their specific industries and business needs. We leverage award winning systems like Microsoft Dynamics GP (formerly Great Plains), Microsoft Dynamics SL (formerly Solomon) and Sage MAS 500 ERP. Our suite of solutions also includes integrated CRM with Microsoft Dynamics CRM and Sage SalesLogix CRM, development and deployment of robust analytical and reporting tools, including: Microsoft SQL Reporting Services, Microsoft FRx and Microsoft Forecaster, Crystal Reports, OLAP for Microsoft Office Excel and Proclarity Analytics Server to deliver comprehensive solutions for your business.
