

Unleash the power to transform.

Your company has dreams.
We have the technology.

ERP, CRM and BI for small to mid-sized businesses.

Goodbye, inefficiency. Hello, NexTec.

Your business has climbed to new heights and that's great, but with every summit comes new challenges. Your software is antiquated, your systems don't talk to each other, and you need new tools to keep up with industry changes. The big opportunities you have been waiting for are finally within reach – but first you need someone to help you make sense of your technology. That's where NexTec comes in. **We are experts at taking businesses that have reached the limits of their current business software to the next level. We specialize in ERP, CRM and BI for small to mid-sized businesses.**

You want advice and guidance

Just like an alpine guide, you want an advisor with experience to help plan your route, chose the right gear, guide you up the path, watch out for pitfalls and get you back to base securely. NexTec:

- 1 Understands the terrain**
- 2 Helps find the right technology for your business**
- 3 Provides guidance on how best to implement that technology**
- 4 Gives you honest answers and truly objective counsel**

You need a team with a track record

Experts are only expert if they have a long history and track record in business technology. NexTec:

- Has over 20 years experience helping mid-sized businesses with ERP, CRM and BI solutions
- Has served more than 1,300 clients
- Wins awards for its implementation of software
- Employs certified consultants with deep industry experience

You want experts who understand you

World-class software experts are hard to find. We've got an army of them. What's more, many of our consultants have worked as Operations Managers, Warehouse Managers and IT Managers in companies and industries just like yours. They also hold CPAs, MCPs, MBAs, APICS, and PMPs which allows us to better advise you about the right technology for your business needs.

You want choice and value

You're a growing mid-sized company. You can afford to invest, but cost still matters. We get that and help you find the right solution that fits your business. We offer you a wide choice of ERP, CRM and BI solutions that not everyone offers. We help you choose the right one for your business.

You want a partner you can count on

There's a reason why our clients are so incredibly loyal: They love working with the NexTec team. In fact, almost half of our clients have tried working with other consultants before turning to us. Independently owned, with offices throughout the country, we are the leading mid-market implementer with a reputation for project management and client satisfaction that none of our direct competitors have ever been able to match.

It's not easy. That's why we're here.

If someone tells you that implementing new software is easy, run for the hills. The truth is, it's not easy, but the potential payoffs are huge.

EFFICIENCY

Streamline business processes across all divisions

INTEGRATED INFORMATION

Keep your data consistent and up-to-date in a single location

SIMPLIFIED REPORTING

Run customized reports easier without help from IT

SECURITY

Improved accuracy, consistency and security of data
